Welcome

Mr. Joe Bonnet

JS J7

Chief, Joint Experimentation, Transformation and Concepts Division (JETCD)

Combined Joint Concept Development and Experimentation Conference

Purpose

- Fostering Joint Collaboration among the JCDE community
- Updating community on the status of the JOpsC family
- Updating community with relevant perspectives that will help shape the way we do business
- Prioritizing our joint experimentation efforts
- Developing the way ahead for the FY 08-09 JI&E Campaign Plan

Concepts

Where we are:

- Services and COCOMs developing directed–linkages to JOpsC family
- JOpsC Family
  - 3 JOCs v 2.0 signed and released
  - JFCs in revision
  - 3 JICs in development
- CBA on JICs has resulted in Initial Capabilities Documents for JCIDS

Concepts

What we've learned:

- JOpsC development process improvements are working
- Near term concepts must continue to tie into future concepts
- Competition of ideas needs to be nurtured and continually examined
- JCIDS, JOpsC, and JE still need to refine "on ramps and off ramps"
- Synchronization of what the JCDE community is doing is paramount – Support the JCDE Portal

Concepts

Where we are going:

- Continue to support the JOpsC Development Process
- Identify future concepts that support resolving MPMI and Joint Warfighter Challenges
- Support Capabilities-Based Planning
- Continued support of these biannual JCDE meetings for community collaboration.

Joint Experimentation

Where we are:

- Chairman JE Guidance Memo 9 Jan 06
  - Released administrative update on 4 Dec 06:
    - Captured 25 Sep OPSDEP changes to USJFCOM JE Roles & Responsibilities and Terminology
- Version 1 of JI&E Enterprise Process Guide (EPG)
  - Describes how “Enterprise” members plan, coordinate, conduct, assess JE
- CJCSI 3180 (Joint Experimentation) under development
  - Will provide description of JE process at Strategic level and linkages to CBP
- Development of Status and Recommendations report linked to JCAs
  - *What have you done (in BA, C2, FP, FA, etc…) and what were the results*
- Development of a Joint I&E Campaign Plan
  - Determine the potential “challenges / issues” for Joint CDE efforts
  - Determine what issues / challenges are most important

Combined Joint Concept Development and Experimentation Conference

Joint Experimentation

What we've learned:

- Detailed process on "how" the Joint CDE Community/ Enterprise plans, coordinates, conducts, and assesses JE is needed – *EPG v 2.0*
- Concept Authors need help / guidance on how to develop experimentation plans and integrate efforts in JI&E CPLAN
- Need for better integration between Joint CDE and CBP processes
- COCOMs are not adequately resourced to conduct Joint CDE or effective collaboration with the Joint CDE Enterprise
- Reduce # of lists and data calls (WFCs, IPLs, MPMIs, JUONs, COCOM Cdr Priorities, etc…)
- CPLAN with 3 or more year outlook preferred

Where we are going:

- Formalize JI&E Enterprise processes with release of current EPG -- Publish v2.0 by Dec 07
- Publish CJCSI 3180 by Oct 07
- Publish Joint I&E Campaign Plan (Draft June / Final Sep)
